How Qfix endevours to CHANGE & BRING EASE to various stakeholders

Schools/Institues

- The institutes will witness a significant change in the way its schools/college and its functionaries are monitored. The adoption of QFIX Solution will help to run productive & fast operation, provide quick, transparent and accurate reporting.

- With all information on virtual internet space, the file/filing system of past will get an image makeover to give way to a more analytical, systematic and organized way of record management.

- Paper-less operations will further help the institutes to cut down on stationary expenses; and will contribute towards the larger goal of conservation of nature. Dissemination and reception of information would become faster, more efficient and more organized in nature

Teachers

- Share real time updates of activities/happenings/reports emanating in the confines of classroom and school campus with parents, without dissipating efforts on underlying clerical drudgery.
- Intelligent features of "QFIX" will reinforce the scale of teacher-parents interaction, with an objective to bring an element of real time information and transparency regarding the student's activities and accomplishments.

- Naturally, this will infuse more involvement on the part of the parents, in contributing towards the advancement of their child's studies and other non-curricular activities.

Parents

- With mobile telephony making inroads in the hinterland, it will be easier for parents and guardians to know about the progress/performance of their ward studying in school.

- The application is well suited for parents/guardians remain updated of their student who may be studying in a far-off located school.
